Course and Curriculum Proposal from: Department of Special Education and Child Development/College of Education

Title: Revising of M.A.T in Special Education (Adapted Curriculum)

CONTENT OF PROPOSAL

A. PROPOSAL SUMMARY AND CATALOG COPY:

SUMMARY OF GRADUATE CHANGES: The Special Education and Child Development Department proposes the revisioning of the M.A.T. in Special Education (Adapted Curriculum) by aligning course curriculum to the North Carolina State Board of Education Standards for Teacher Education and NCATE standards. The M.A.T in Special Education General Curriculum is composed of two phases. First students must meet initial teaching licensure standards with successful completion of the 27 hour Graduate Certificate Program in general Curriculum (approved Spring 2010). At that point students may apply to the Graduate School for admission to the M.A.T. program with a transfer of the 27 initial licensure hours. An additional 12 hours are required to earn the M.A.T.

Curricular changes include the alignment of course content with new standards and judicial placement of candidate assessment measures and evidences.

SPED 6690 *Consultation and Collaboration* was changed from a 3 credit course to a 2-credit course.

SPED 6691a (1), SPED 6691b (1), SPED 6691c (1) *Seminar in Professional and Leadership Development* was changed to SPED 6691 *Seminar in Professional and Leadership Development* (1).

RSCH 7113 Single Case Research (3), SPED 6502 Advanced Classroom Management, and SPED 6503 Instructional Design in Special Education were retained.

RSCH 6101 was deleted from the M.A.T and standards originally met through this course are shared among the 12 required hours.

PROPOSED CATALOG COPY: Graduate

SPED 6690. Consultation and Collaboration. (2) Graduate students in Special Education will likely assume leadership roles in their individual schools and/or their LEA's. The proposed course is designed to provide students with the background, knowledge base, experience, and personal contact to work collaboratively with professionals and parents. The proposed course will be offered in a true seminar manner. Learning consultation and collaboration skills assures that the needs of individuals with Exceptional Learning Need (ELN) are addressed throughout their school career. It also enhances the view of Special Educators as specialists and a resource to colleagues for instruction, inclusion, transition, and collaboration with outside agencies. Students enrolled in the course will use these skills, the professional literature, and their professional experience to formulate training packages for successful collaboration. (Fall)

SPED 6691. (1) Prerequisites: An "A" level special education teaching license and admittance to the Special Education M.A.T. Program, SPED 6502, SPED 6503, RSCH 7113. Pre or Co-requisite: SPED 6690. The course is designed to support graduate students in the design, implementation, and write up of their Data-based Decision Project, required for M.A.T. candidates in special education. This project involves the candidate implementing an academic or behavioral intervention with one or more students using a single subject research methodological design and support/mentor a colleague to implement a

similar intervention with other students. This project must be implemented in a school setting. The resulting product serves as the capstone project for the M.A.T. (*Fall, Spring*)

B. JUSTIFICATION.

- a. The UNC Charlotte Special Education Program underwent structural and curricular changes in response to a revisioning mandate from the North Carolina State Board of Education to all licensure programs in North Carolina. The program responded to gaps in our current program as identified by faculty members and our community partners including the practical use of data to determine interventions; knowledge of co-teaching models and best practices; knowledge and skills working with culturally and linguistically diverse students; content knowledge in middle and high school reading, writing, and mathematics; and knowledge of Universal Design for Learning strategies.
- b. Course number is consistent with the level of academic advancement of students in a M.A.T program.
- c. Special Education faculty concur that the revised program will better prepare graduate candidates to engage as knowledgeable and skilled professionals in the field of special education and to serve as special education teachers who thoughtfully plan and implement effective, research-validated instruction that is responsive to the diverse and multi-faceted needs of their K-12 students.

C. IMPACT.

1. Graduate students entering the M.A.T in Special Education (Adapted Curriculum) will be served by this proposal.
2. Effect on existing courses
 - i. When and how often these new courses will be taught?

There are no new courses in the last 12 hour advanced licensure sequence. They will continue to be offered as frequently (i.e., at least once per year) as previously scheduled with the exception of SPED 6690, which will have fewer sections since only students accepted into the M.A.T. will be required to take it.

- ii. How will the content and/or frequency of offering of other courses be affected?

Other courses offered by the SPED program will not be affected.

- iii. What is the anticipated enrollment?

Anticipated enrollment for each course is estimated at 25 students.

- iv. How will enrollment in other courses be affected?

Enrollment in other courses offered by the SPED program will not be affected.

- v. Give details of experience if courses offered under special topics.

These new courses have not been offered under special topics.

- vi. Identify other areas of catalog copy that would be affected.

Other areas of the catalog copy that will be affected include curriculum outlines, degree requirements, course number and description.

D. RESOURCES REQUIRED TO SUPPORT PROPOSAL.

1. Personnel:

a. Requirements: at this point, no additional faculty is needed.

b. Names of qualified faculty

1. SPED 6052 will be taught by Dr. Ya-yu Lo or Dr. Charles Wood
2. SPED 6503 will be taught by Dr. Ya-yu Lo or Dr. Charles Wood
3. SPED 6690 will be taught by Dr. Gloria Campbell-Whatley
4. SPED 6691 will be taught by Dr. Shawnee Wakeman
5. RSCH 7113 will be taught by Dr. David Test

2. Physical Facility

None: courses can be taught within the existing facility

3. Equipment and Supplies

None: Additional equipment and supplies are not needed.

4. Computer

None: courses are taught by existing faculty

5. Audio-Visual

None: Additional audio/visual equipment is not required.

6. Other Resources

None: Copying can be provided with the existing budget.

7. Sources of funding

None

E. CONSULTATION WITH THE LIBRARY AND OTHER DEPARTMENT OR UNITS

a. Library Consultation

Additional library consultation is not needed as a new course was not developed.

b. Consultation with other departments or units

Email sent to Dawson Hancock, Department of Educational Leadership, on September 29, 2010 (see attached).

F. INITIATION AND CONSIDERATION OF THE PROPOSAL

a. Originating Unit

The SPED faculty developed the revised M.A.T. program in General Curriculum during the 2009-2010 academic year. The final revision of this program was voted on and approved at the Special Education Program meeting, April 20, 2010.

b. Other Considering Units: N/A

c.

G. ATTACHMENTS

a. Memorandum to Dr. Dawson Hancock, September 29, 2010

Subject: RSCH 6101: Educational Research Methods

MEMORANDUM

To: Dr. Dawson Hancock, Chair
Department of Educational Leadership

From: Lee Sherry, Chair
Department of Special Education and Child Development

Re: RSCH 6101: Educational Research Methods

Date: September 29, 2010

The Special Education Program faculty in the Department of Special Education and Child Development have completed program revisions based on the new North Carolina Department of Public Instruction Professional Teaching Standards. For the revised Master of Arts (MAT) in Teaching Program, the course RSCH 6101: Education Research Methods has been dropped from Program requirements.

This change has been made to meet the new standards for the advanced teacher licensure in Special Education – Adapted Curriculum and Special Education – General Curriculum. Candidates in the revised MAT Program will demonstrate research expertise by implementing a 12 hour course sequence where students will demonstrate research strategies in the classroom designed to enhance outcomes for students in academic content areas or improvements in behavioral functioning. RSCH 6101 will remain a requirement in our revised Master’s of Education (MEd) Program.

This memorandum serves as notification of the change in curriculum in our Special Education Program. Please acknowledge receipt of this communication and the change in Program requirements.

Thank you for the support you have provided for our programs.
